Maybe even better than free.

There are no restrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. Our service is completely free for everyone. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Keep your files private, or send your download links only to friends or family. Using file, you can circumvent those limits without paying to upgrade your team chat service. Any file in any format can be uploaded and downloaded for free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. If only we could, we surely would! On the otherhand, using file can actually save you money. You can give this download link to your friends by mail or instant messenger. It is also allowed to link to thedownload page from websites and communities. File is free to use with no gotchas and no hidden fees. The cost of that data transfer is covered by your riternetservice or the data plan on your phone. We have no file size limit. You don't need any special software installed to be able to download for any computer formown high speed servers. Just upload the file you want to share with your friends and we send you a download link to your file. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. filehosting provides an easy possibility for you to send large files to your friends. Simply uploadyour file and share the link. You decide who you want to share with. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. No account or credit card is required to get started. So try our friend simple filehosting service now. Youcan upload any type of file (movies, music, documents, images, zip files and more).
