Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. You don't need any special software installed to be able to download your files. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. No account or credit card is required to get started. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You decide who you want to share your files with. File is free to use with no gotchas and no hidden fees. Files can be downloaded from any computer from our high speed servers. Unfortunately, we can't make that part free. You can upload any type of file (movies, music, documents, images, zip files and more). If only we could, we surely would! On the other hand, using file can actually save you money. The cost of that data transfer is covered by your internet service or the data plan on your phone. You can give this download link to your friends by mail or instant messenger. Any file in any format can be uploaded and downloaded for free. Using file, you can circumvent those limits without paying to upgrade your team chat service. Why pay storage fees for a file that you just wanted to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Just upload the file you want toshare with your friends and we send you a download link to your file. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share afile, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. So try our free and simplefilehosting service now. filehosting provides an easy possibility for you to send large files to your friends. We have no file size limit. This i
